

David Stowe

Areas of Expertise

Cost Allocations
Cost of Service Studies
Customer Impact
Demand-Side Management
Depreciation
Economic Dispatch
Load Flow Studies
Line Loss Analysis
Marginal Cost Analysis
Minimum System and Zero Intercept
Production Cost Modeling
Rate Design and Tariff Analysis
Renewable Energy Production

Mr. Stowe is a Consultant at BAI. He received a Bachelor of Science Degree in Electrical Engineering from Kansas State University, and is a Professional Engineer registered in Missouri.

Prior to joining BAI in 2007, Mr. Stowe spent 14 years in utility regulation employed as a Regulatory Engineer with the Kansas Corporation Commission, the Missouri Public Service Commission and, most recently, as a Senior Regulatory Analyst with Aquila, Inc.

His recent experience has focused primarily on cost of service, minimum system and zero intercept determination, customer impact analysis, and rate design. He has testified before the regulatory commissions of Missouri, Kansas, and Colorado.

Project Work
