Mr. Selecky is a Managing Principal. He received Degrees of Bachelor of Science in Engineering from Oakland University and Master of Business Administration in Finance from Wayne State University.

Mr. Selecky is a registered Professional Engineer in the State of Michigan.

Prior to entering the consulting field in 1984, Mr. Selecky was Director of Revenue Requirements at The Detroit Edison Company. He was responsible for purchased power and fuel cost filings, economic, depreciation, and cost of service studies and development of rate case revenue requirements. Mr. Selecky filed testimony before the Michigan Public Service Commission and the Federal Energy Regulatory Commission.

Since 1984, Mr. Selecky has provided consulting service to clients on almost all aspects of regulated and competitive electricity and natural gas issues. He has testified in nearly all issues related to setting utility rates. He has filed testimony in over 150 proceedings in over 25 jurisdictions.

Recent engagements have concentrated on cost of service, revenue allocation, rate design and revenue requirement issues.
